

Public Notice

November 21, 2006

**NOTICE OF ROUTINE PROGRAM CHANGE
OF THE SAN FRANCISCO BAY SEGMENT
OF THE CALIFORNIA COASTAL MANAGEMENT PROGRAM**

***San Francisco Bay Plan Amendment No. 2-06
Concerning Revision of the Recreation Findings and Policies,
Plan Map Notes, Policies and Suggestions, and Resolution 16***

Pursuant to Section 923.84 of the federal Coastal Zone Management Act regulations, notice is hereby given that on September 7, 2006 the San Francisco Bay Conservation and Development Commission modified its coastal management program for the San Francisco Bay segment of the California coastal zone.

Specifically, the Commission amended the *San Francisco Bay Plan* (Bay Plan) as follows:

- (1) Revised the Recreation findings and policies;
- (2) Amended the plan map designations, and map notes, policies and suggestions that related to recreation; and
- (3) Amended Resolution 16 regarding the boundaries of waterfront park, beach priority use areas.

The California Office of Administrative Law approved this amendment pursuant to California Government Code Section 11354.1 and filed the amendment with the California Secretary of State on November 7, 2005. Further, the Commission gave notice of its adoption of Bay Plan Amendment 2-06, and its determination that the amendment will have no significant adverse impact on the environment, to the Secretary of the Resources Agency and to the public, as required by California Public Resources Code Sections 21080.5(d)(2)(E) and 21080.5(d)(2)(F). Thus, Bay Plan Amendment No. 2-06 is effective for state permitting purposes.

For federal projects the Commission has determined that this modification of the Bay Plan constitutes a *routine program change* of the Commission's federally-approved coastal management program as that term is defined in 15 CFR 923.84(a) because the action does not make any substantial change in or substantial change to any enforceable policies or authorities related to: (1) uses subject to management; (2) special management areas; (3) boundaries; (4) authorities and organization; or (5) coordination, public involvement and national interest. The Commission has requested the federal Office of Ocean and Coastal Resources Management (OCRM) to concur in this determination.

Comments on whether this program modification does or does not constitute a routine program change may be submitted to OCRM within three weeks of the date of this notice. All comments should be sent to:
